## 4 MONEY-SAVING TRICKS

Here are some easy ways to save money that may surprise you:

1. When opening a bank account, pay attention to hidden fees. "Student accounts" often have lower minimum-balance requirements.
2. Rent textbooks or use social media to find students selling their used editions. Also find out if the materials you need are available electronically, which is often cheaper.
3. Skip buying bottled water. Tap water is free and safe! If yours has a taste you don't like, filter it.
4. Find movies and music at the library. Most stock recent releases in addition to the classics.
