

Insurance Billing at the Student Health Service

Most services are provided without charge to students who have paid the Health and Counseling Centers fee. For students with the University of Miami Unitedhealthcare plan all clinical services are covered without co-payment, deductible or co-insurance. For student with other insurance, charges for specialty care visits, non-routine labs, X-rays and other diagnostic tests can be billed to most insurance companies (see exceptions, special requirements below). Co-payments, deductibles and co-insurance (if any) can be paid at time of service or more typically charged to your Student Account.
