Thanks for considering UnitedHealthcare

You want the best benefit coverage with the fewest obstacles between you and your health care. Here are some of the ways becoming a UnitedHealthcare member may help.

Large national network

Our network is one of the largest in the nation, with 900,000+ doctors and 5,500+ hospitals. So, chances are your regular doctor already participates with us. It also means that wherever you are in the country, you'll be able to find a network hospital and get the same benefit coverage level you find at home.

Benefit coverage wherever you travel

- 900,000+ physicians and health care professionals
- 5,500+ hospitals
- Large national pharmacy network
- 123,000+ counseling and mental health practitioners

Eligibility

All domestic students who are actively enrolled in 6 or more credit hours per semester, or considered full time (in a program requiring documentation of health insurance coverage; exceptions listed at miami.edu/student-health), must purchase the student insurance unless they show proof of comparable coverage. All international students, regardless of credit load, are required to be insured under the plan.

Students must actively attend classes for at least the first 31 days (unless an official medical withdrawal has been approved by the Student Health Service) after the date for which coverage is purchased. Non-degree-seeking, noncredit courses — or weekend — only programs or courses do not fulfill the eligibility requirements.

UnitedHealthcare maintains its right to investigate student status and attendance records to verify that the policy eligibility requirements have been met. If UnitedHealthcare discovers that the policy eligibility requirements have not been met, it may discontinue coverage and it's only obligation is to refund the premium.

Eligible students who enroll may also insure their dependents at the time the student is first able to enroll in the plan (within 14 days of the start of the semester), except for a change in dependent status due to a life event. Eligible dependents are the spouse and children. Dependent eligibility expires concurrently with that of the insured student.

Effective and termination dates

The Master Policy on file at the school becomes effective Aug. 15, 2021. Coverage becomes effective on the first day of the period for which premium is paid. The Master Policy terminates Aug. 14, 2022. Coverage terminates on that date or at the end of the period through which the premium is paid, whichever is earlier. Dependent coverage will not be effective prior to that of the insured student, or extend beyond that of the insured student.

The Counseling Center

The Counseling Center offers a variety of services to students, including short-term psychotherapy, individual and group counseling, career and educational counseling and assessment services to assist students in their educational and career decisions. For appointments and more information, please call **305-284-5511**.

How to enroll dependents

For questions about enrolling dependents of students, please contact Academic Health Plans (AHP) at **855-844-3001** or visit miami.myahpcare.com.

Information on automatic charge of insurance premium for students and waiver of insurance fee is available at miami.edu/student-health.

Summary of benefits – Student health plan

With this plan, you will receive the highest level of benefits when you seek care at the Student Health Service, or when referred to a network physician, facility or other health care professional. You will also receive a higher level of benefits when you seek care at UHealth facilities. In addition, you don't have to worry about any claim forms.

You also may choose to seek care outside the network. However, you should know that care received from an out-of-network facility, physician or other health care professional means a higher deductible, copayment and coinsurance. In addition, if you choose to seek care outside the network, UnitedHealthcare only pays a portion of those charges, and it is your responsibility to pay the remainder. The amount you are required to pay, which could be significant, does not apply to the out-of-pocket limit. We recommend that you ask out-of-network physicians or health care professionals about their billed charges before you receive care.

What's what (a short glossary of terms)

Copayment – A fixed dollar amount you pay when you receive certain types of network care.

Annual deductible – The amount you must pay before your medical plan pays.

Coinsurance – After you meet your deductible, the medical plan pays a percentage of the covered cost of some services and you pay the rest. Your share is called coinsurance.

Out-of-pocket limit – You share expenses until you reach a yearly limit on how much you have to pay.

Network vs. out-of-network – Network means you receive care from a doctor, specialist, hospital or other provider or facility that participates in a medical plan's network. Out-of-network means you receive care from a provider who is not in the network. Your deductible, coinsurance limit and out-of-pocket costs are higher for out-of-network care.

Eligible expenses – The amount we will pay for covered health care services, incurred while the policy is in effect, are determined as stated below.

For network and Student Health Services benefits, eligible expenses are based on either of the following:

- When covered health services are received from network providers, eligible expenses are our contracted fee(s) with that provider
- When covered health services are received from out-of-network providers as a result of an emergency or as otherwise arranged by us, eligible expenses are billed charges unless a lower amount is negotiated

For out-of-network benefits, eligible expenses are based on the following applicable criteria, to the entrant available, and in the order of priority as identified below:

1. Fee(s) we are able to negotiate with the provider, such as the Shared Savings Program
2. 100% of the published rates allowed by Medicare for the same or similar service
3. 50% of the billed charge

Pharmacy management program

Plan 060

This UnitedHealthcare plan includes pharmacy services with choice, accessibility and value. While most pharmacies participate in our network, you should check before filling. Call your pharmacist, or visit myuhc.com to find locations of network retail neighborhood pharmacies by ZIP code.

Prescription order or refill and copayments

All covered prescription drug products on the Prescription Drug List are placed on Tier 1, Tier 2, Tier 3 or Tier 4. Please visit myuhc.com, or call the number on your health plan ID card to find tier placement.

For a single copayment, you may get up to the covered supply amount. Some products are subject to supply limits.

Some prescriptions require prior authorization. This means your doctor will have to give us more information about why the drug is right for you before we will cover it.

Due to health care reform law, many contraceptives are covered 100%. Refer to myuhc.com for a more complete list.

Specialty medications must be filled through the OptumRx® Specialty Pharmacy Program. Please call **888-739-5820** for more information.
